Dear Parents,

Answering the questionnaire is an important part of our admission process. We request you to answer the same with due care and attention in the language of your choice out of Marathi, Hindi and English.

### Parent Questionnaire

The school is trinity of children, their parents and school team members. It is the synergy between the school community and parent's community which builds a healthy learning environment for children. It is thus important for us that there is harmony in the school and home environment. Thus school alone is not responsible for the child's education. A complete involvement of parents to actively establish the appropriate ethos at home and in their lifestyles is also equally important in the education of the child.

We request you to answer the following questions :

Your answers are important for us as, it will help us understand if what we stand for and offer and what you are looking for is in the same direction

1) What is your idea of education?
